GOPRO
Hero5 Black

The long-awaited GoPro Hero5 Black is just the thing for the angler on your list who loves to capture and relive fishing memories. So, what's new with the Hero5? It's now fully submersible down to 33 feet without the use of waterproof housing, which is a very cool advancement. However, the component creating the most buzz is the Voice Control feature that allows the user to operate the camera hands-free through a list of voice commands. It also includes Advanced Video Stabilization, 4K video and 12mp photos, raw WDR photo, exposure control and a greatly improved microphone system. This is easily the best GoPro ever, and it will capture your greatest fishing moments in style!

LUCID
Amped Bluetooth Neckband

This is the perfect gift for the angler who also loves music. The Lucid Amped Neckband not only plays your favorite tracks, but it also features Sound Activated Compression, which instantly protects your ears from loud harmful noises. The ear buds are retractable, keeping them out of the way and from getting into a tangled mess when not in use. The power source is a rechargeable LIPO battery that is good for up to 10 hours of use. The neckband comes with an integrated micro USB port for charging, and an array of other attractive features. They are available in black and a white/gray combo.

DOG & BONE
Wetsuit Impact

When it comes to protecting your technologically driven devices, your phone is near the top of the list. When you spend many hours on the water, under all conditions, Dog & Bone's Wetsuit Impact is the ideal smartphone case. The case takes rugged protection to new heights with a high-impact glass screen and offers waterproofing sophistication without compromising style and function. If you use an iPhone, including the new 7 and 7-Plus, or one of several Samsung Galaxy models, Dog & Bone has your phone covered. Available in several color combinations.

GARMIN
Quatix 3 Marine GPS Smartwatch

Garmin has taken smartwatches to a new level by integrating Garmin fishfinder connectivity and many other Garmin-specific technologies, including the Virb action camera, GPS and fitness devices. The Quatix 3 is preloaded with a number of important marine-specific features, including up-to-date tide data, weather information and multiple smartphone apps that can come in very handy when on the water. The ultrabright color display runs on an LED backlit screen, which works well in harsh sunlight. The watch also features a fish counter and a number of traditional clock faces. This thing literally does more than we have space to explain, and it deserves a spot in the dedicated angler's arsenal.

FREEDOM TACKLE
Stealth Swim Jig

Freedom's Stealth swim jig features the company's unique swing-head design. While affixed to the jighead, the hook is allowed to swing freely, generating a very seductive action bass can't ignore. The compact design easily swims through vegetation, even without a brush guard. The Stealth can also be fished without the skirt for fine-tuning a swimbait presentation. The streamlined head design is perfect for punching heavy weed cover where big hungry bass are known to lurk. This is an advanced lure system that will put a hard-to-resist presentation where the big fish swim.

LIVETARGET
Swimbait Series

LiveTarget has built an impressive reputation that takes forage-mimicking lures to a new level. The company's new swimbait lineup is no exception. The family of swimbaits includes numerous shad species, herring, trout, yellow perch, golden shiner and even mullet, sardine and pinfish for the saltwater angler. The lures come pre-rigged and in assorted lifelike sizes. Anytime bass are feeding heavily on large baitfish, this type of presentation becomes an instant go-to, and now LiveTarget has a healthy selection of ultrarealistic swimbaits.
